DEADLINE: JUNE 30, 2016

ELIGIBILITY

The Alliance Call for Trilateral Initiatives in Emerging Regions (T.I.E.R) invites faculty members to submit proposals for a jointly taught course, research, seminars or workshops to broaden educational opportunities and address the student driven demand for exposure to countries and territories outside Europe and North America. *The call is only open to full-time officers of instruction of professorial rank.*

The primary goals of the initiative are to promote academic cooperation with out-of-the-network research and education institutions in other continents, in support of capacity building. The initiative encourages projects of all disciplines aimed at innovative regional immersion/integration including, among others, citizenship and urban studies, management of natural resources, public health, statistical capacity or data analysis.

In addition to partnering with accredited higher education institutions or research centers outside Europe and North America, the initiative must involve collaboration of full time faculty from Columbia University and at least one of the Alliance French partners: Sciences Po, École Polytechnique, and Paris 1 Panthéon-Sorbonne University.

The Alliance Program will fund project up to $15,000 for travel, materials, technological support, and other expenses in the design/implementation of the project. The grant cannot be used for salary, stipends, Per Diem, or teaching-assistant wages.

The initiative targets proposals that have found or will seek external funding from either two channels:
